ing together. Inside they were met by Director-General Buchanan, who had arrived but a moment before, and he di-

rected them as to where to stand. In passing to the place the President took off his hat and smiled pleasantly in the place. To one of the reporters he spoke smilingly, saying:

"It is much cooler in here, isn't it?" President Stood in Ais'e.

The interior of the building had been arranged for the reception. From the main entrance, which opens to the southeast from the temple into the wide esplanade, where thousands had gathered, an aisle had been made through the rows of seats in the building to a point naer the centre. This aisle was about eight feet wide and turned near the centre to the southwest door of the temple, so that there was a passage dividing the south part of the structure

It was so arranged that the people who would shake hands with the President would enter at the southeast door, meet the President in the centre and then pass on out at the southwest door. Where the aisle made the curve in the centre of the building the corner had been decorated with tall palms and green plants, so the President stood under a bower. Both sides of the long aisle were covered with continuo strips of purple bunting.

Soldlers Were at Hand.

From the southeast door and extending on up to and around the curve was line of soldiers from the Seventy-third Seacoast Artillery on each side. These were interspersed with neatly uniformed guards from the Exposition police, under the command of Captain Damer.

When the Presidential party was within the building the soldiers came to "attention" and all took their places. The President was escorted to the centre of the palm bower and Mr. Milburn took a position on his left, so as to introduce the people as they came in.

Secretary Cortelyou stood by the President to the right. Secret Serviceman Foster, who has traveled every-where with the President, took a position not more than two feet in front of Milburn and Secret Serviceman Ireland stood on his left, so that Ireland was the same distance in front of the President as was Foster in front of Mr. Milburn.

Was In Fine Humor.

Through this passage the people who would meet the President must pass. When all was ready with detectives scattered throughout the aisle, the President smiled to Mr. Buchanan, who was standing near the corporal in charge of the artillerymen, and said that he was ready to meet the people. He practice, whipped out his right was very pleasant and as he waited for crowd was in the most cheerful humor the doors to open he rubbed his hands anyone knew what was transpiring two was admitted to see him.

Says He Became an Anarchist Through the Influence of Emma Goldman.

Buffalo, N. Y. (Special).-When the would-be assassin was first brought before the police authorities he gave the name of Fred Niemen, and claimed that his home was in Detroit. Later the detectives learned that his real name was Leon Czolgosz, and that he was born in Buffalo, N. Y. (Special).-Immediate- Detroit and came here from Cleveland.

Late at night he signed a confession covering six pages of foolscap which state that he is an anarchist and that he became an enthusiastic member of that body through the influence of Goldman, whose writings he had read and whose lectures he had listened to. He denies having any confederate and says he decided on the act three days age

He has seven brothers and sisters i Cleveland, and the Cleveland directory has the names of about that number liv ing on Hosmer street and Ackland avenue, which adjoin. Some of them are butchers and others in different trades He is now detained at police headquarters pending the result of the President's injuries.

Czolgosz does not appear in the least degree uneasy or penitent for his action. He says he was induced by his attention to Emma Goldman's lectures and writings to decide that the present form of government in this country was all wrong, and he thought the best way to end it was by killing the President.
